

# AGN Science Interest Group

*Leadership: Erin Hicks (co-chair), Vivan U (co-chair), Travis Fischer, Anika Goel, Ming-Yi Lin, Peter Maksym, Pallavi Patil*

## AAS Splinter Session

**Tuesday, January 6 | 9:00–10:30 AM MT**

Phoenix Convention Center, Room 131 A

### Highlighting Recent Discoveries:

*Unlocking Precise AGN Outflow Energetics with Spatially Resolved Modeling* – Mitchell Revalske

*The Role of Gamma Rays in Elucidating Active Galaxies* – Tiffany Lewis

*Unveiling the High-redshift Obscured AGN Population with JWST/MIRI* – Jianwei Lyu

**Interactive Discussion:** Defining key scientific questions and priorities anticipated to shape AGN research over the next ~15 years.

## Monthly Online Events

Goal: Bringing the community together to advance AGN science.

### Spotlight Series

January 27 | 10-11 AM PT / 1-2 PM ET
