TABLE OF WORK EFFORT - INSTRUCTIONS

Please do not include these instructions in your proposal.

Include rows for all personnel, whether paid or unpaid and include placeholders for any postdocs, students, etc., who are not specifically identified by name in the proposal. Add rows as needed for large teams and columns for additional years.

The table divides work effort by years, where the first column under (*This Project*) for each year (*NASA Support*) indicates the number of months committed to this project that will be directly funded by this proposal. The second column (*Total*) indicates the **total** number of months that will be committed to this project by the team member (including both time funded by this proposal AND to be supported by other means). The second column (*Total*) should be greater than or equal to column one (*NASA Support*). If proposers intend to dedicate additional (not NASA funded) time to the outlined work (i.e. the columns under *This Project* are not equal), then proposers should note the funding source for each individual's time using footnotes within the comments section.

The third column (*Other Funded Projects*) indicates the number of months that are committed to other **currently** funded proposals (listed in "Current and Pending Support"). Time allocated to pending projects or submissions planned in the near future should not be added to this number.

The three columns on the right (under *Sum*) are the total values for all years of the projects.

Proposers are welcome to explain any distinction in time allocations within the comments section below the table. In general, if the proposer feels that their funding/support situation is out of the ordinary or they are filling out this table in a non-standard way, they are encouraged to clarify in the comments section.
